

## **Touch Up Paint for Powder Coatings**

Scratched surfaces on painted products caused by hook marks, hard to reach faraday areas, down steam product handling processes, on-site installation, and shipping and handling can require scrapping or rework. We can produce perfectly matched touch-up paint as an alternative to costly scrapping and rework.

Our touch up paint offers powerful surface protection from a single component. This quick dry paint is especially useful for products made out of metal like industrial equipment, furniture, household products, and machinery. Unlike most cheap generic paint products, our touch up paint offers an outstanding film hardness and exterior durability allowing you to quickly coat without compromising the integrity of your equipment.

## **Capabilities**

- Consistent product quality
- Complete gloss ranges from zero degree (flat) to full gloss (90+)
- Exact color matching
- Excellent coverage
- Metallics, textures
- Application and environmental support
- Offered in cans, touch-up pens, brush in bottles, gallons, and quarts
- Fast turnaround time for both large and small orders
- Competitive pricing
